Career Objective

My name Is Deep Kharvi and I Currently Pursuing Cloud Computing With A.I From Jetking and completed Bca in 2024 and also Pursued Full Stack Python Development With SkillitUp Academy in I'm a results-driven developer dedicated to creating intuitive and efficient web experiences. I specialize in bridging modern frontend solutions. My core workflow revolves around using Next.js and React for seamless user interfaces, powered by dynamic data styling through Tailwind CSS. On the backend, I leverage SQL (specifically the Neon platform) to build structured, performant, and reliable databases. I'm fascinated by serverless architecture

Professional Experience

IT Technical Assistant, The CyberTech Data Recovery - Mumbai 03/2026
Mumbai

- Managing the Company's Website
- Explain the flow of software to customers
- Any research work of websites
- Laptop Related Troubleshooting
- Developing the Websites

Field Service Engineer, Jetking Pvt Ltd 02/2023 – 03/2023
Mumbai

- Provided on-site technical support and maintenance services.
- Installed, configured, and repaired hardware equipment.
- Diagnosed and resolved technical faults efficiently.
- Conducted preventive maintenance and system inspections.
- Coordinated with customers to ensure timely issue resolution.
- Maintained service reports and technical documentation.

Education

Bachelor of Computer Applications (BCA), Tilak Maharashtra Vidyapeeth, 07/2022 – 09/2024
Mumbai

Technical Skills

Frontend

HTML, CSS, Bootstrap , JavaScript,React, TypeScript,Next.js. Tailwind css

Deployment

Vercel

Backend

Neon(Serverless Postgresql)

Tools use

Utilized **Google Antigravity** agentic IDE to rapidly prototype full-stack applications.

Projects

Exam Portal Web Application

- Tech Stack: Next.js, TypeScript, AI Integration
- Features: User authentication, exam management system, result processing
- Deployment: Vercel (Frontend)

AI-Assisted Note Manager (Full-Stack Web Application)

Developed a modern note management application using **Next.js**, **TypeScript**, and **Tailwind CSS**. Implemented full CRUD functionality with a serverless **PostgreSQL** database using **Neon** and deployed the application on **Vercel**.

Designed an interactive UI with neon styling and antigravity-inspired animations. Leveraged AI tools during development to improve productivity, code quality, and explore scalable features for future growth.

Key Features

- Utilized **Google Antigravity** agentic IDE to rapidly prototype full-stack applications
- Create, edit, delete, and search notes
- Serverless database integration with Neon (PostgreSQL)
- Type-safe development using TypeScript
- Responsive UI built with Tailwind CSS
- Cloud deployment on Vercel

Courses

Full Stack Web Development , <i>Skillitup Academy</i>	07/2024 – 02/2026 Mumbai
Computer Repairing , <i>Jetking Pvt Ltd.</i>	03/2023 – 06/2023
Gcc-Tbc 40 wpm , <i>National Institute</i>
